This could include custom branding, social media buttons, web graphics for the client's site, fun illustrated icons and patterns to use throughout the site...etc. We can customize this as little or as much as you wish.
- 3] You create a package and/or add-on to your site that offers web design + branding
- 4] When clients contact your with interest (yay!), you'll contact me to let me know the deliverables you'll be needing. You'll send your client my branding questionnaire (which will automatically be emailed to me when completed). If necessary, we'll have a group chat/call.
- 5] I'll bill you for my services (at a 10% discounted rate) and you'll bill you client for the total cost of web design + branding.
- 6] I'll work on the branding elements and liase with your cleint directly for revisions. Don't worry, I'll keep you in the loop and CC you on all emails.
